TRIALGUNA
INSIGHT TO IMPACT

Welcome Message

Dr. Jitendra Kumar

Managing Director

✉ director@bioinnovationcentre.com

The Centre for Bioentrepreneurship under the aegis of Bangalore Bioinnovation Centre has taken the initiative of providing the necessary competency to the aspiring entrepreneurs.

The Bangalore Bioinnovation Centre through its incubation program is an expert in supporting and nurturing the entrepreneurs in the field of Life Sciences viz., Health Care (MedTech/ Pharma/ Bio-Pharma), Agriculture, Food/Nutrition, Industrial Biotechnology and Environmental Biotechnology.

This course is designed primarily to bridge the knowledge gap in clinical research and enable the entrepreneurs, would-be entrepreneurs including students, clinicians etc., to progress smoothly in their journey. This course also caters to the development of acumen and skillset required to become a clinical research professional having apt knowledge on regulatory compliance requirements. The curriculum being inclined more towards practical training equips a person to a world of opportunities.

“**Equipping
The Next generations
Of researchers with
Unmatched Skillset**”

BBC is a state-of-art translational research & entrepreneurship centre catering to the needs of life science startups in the broad areas of Health Care (MedTech/ Pharma/ Bio-Pharma), Agriculture, Food/Nutrition, Industrial Biotechnology and Environmental Biotechnology. A joint initiative of the Department of Electronics, IT, BT and S&T, Government of Karnataka and Department of Biotechnology, Government of India, BBC has been approved by GoK as a Centre for Bioentrepreneurship.

TrialGuna is committed to serve the larger cause of Holistic wellbeing and comprehensive clinical research. Our team has a collective experience of more than 50 years encompassing the dynamic sectors of Pharmaceutical, Nutraceutical and medical devices. We strive to enable and empower healthcare innovation by helping budding scientists of the country move up the value chain of clinical development research. Towards achieving this purpose, we have been conducting numerous research sessions and conferences over the years. Our prime research partners are BBC, HCG, IIM-B, MS University.

Get Started Today !

The three-month intensive training certificate course on Clinical Research & Development is designed to equip you with invaluable insights and essential skill sets that a career in Clinical Research demands, both within India and overseas. Besides providing you with a hands on experience of the intricacies of the Drug & Cosmetic Industry intricacies, our experts help you unfold the essence and significance of the regulatory manuals and clinical research procedures for pharmaceutical drugs, biological drugs, and medical devices. The judicious blend of case-based assignments and mock trainings, and demo submissions to regulatory authorities is a unique feature of this career-centric training course.

Admission Requirement

-  Post Graduation/ Ph.D in Pharma or any equivalent biological sciences
-  Preliminary round of interview selection process
-  Positive Attitude towards Healthcare Research

How To Apply

- 01** Click on the link for registration given below and register your details.
<https://forms.gle/RhYBy74dUqtPU1fd6>
- 02** An acknowledgement email will be sent immediately with a registration ID.
- 03** An e-mail intimating date of interview (online) will be sent to eligible candidates.
- 04** Selection process
- 05** Selected candidates will be sent the link for payment.
- 06** Payment complete - a trainee ID will be provided.

Benefits Derived

This program curriculum covers all practical aspects in a short span enabling you with the competency to secure a job immediately. Based on a comprehensive skill gap analysis, the curriculum has been designed to enhance your employment prospects in the industry.

The program offers intensive training in a simulated manner - mirroring the role you will actually undertake as a Clinical researcher when hired by the industry and thereby significantly enhances your employability. All course trainees will get an additional certificate on GCP at the end of Unit IV apart from the regular course certificate

Program Highlights

- 1** Site Visits
- 2** Internship
- 3** Certificate on GCP
- 4** Medical Writing Training
- 5** Industry relevant training
- 6** Equipped for immediate hiring
- 7** Essence of Research Publications
- 8** CTD workshops on real drug submissions
- 9** Certificate on Clinical Research & Development
- 10** Placement facilitation services after completion
- 11** Online classes combined with sessions for hands-on training

Brief Course curriculum

Module	Hours	Take Away
Introduction to Preclinical and Clinical Research	77	Bridging the life sciences & clinical research gaps
Clinical data capture/evaluation	72	Essence of Research data collection & analysis for defining objectives
Biostatistics and clinical data management	52	Logical pathways & Importance of Data in research
Regulatory guidelines for scientific writing & publications	76	Interpretation of regulations & adapting to bring out best of your research to the world

Career Opportunities

The course equips you with the theoretical knowledge and practical experience to choose from a range of career opportunities in line with your interest. Enrol today and pave the way for a bright career in the stream of your choice!

 Clinical Research Coordinator	 Research Investigator	 Medical Device Equipment Testing
 Clinical Research Associate	 Research Sub-Investigator	 Pharma Labs for Manufacturing
 Clinical Quality Check Unit	 QA Executive	 BA/BE Unit Coordination
 Investigation Product Management & Supply Chain	 Pharma Marketing & Sales	 Hospital Clinical Research Staff

Important Days

Course Duration	3 months
Registration Opens	16 th July 2021
Registration Closes	28 th August 2021
Commencement of the course	01 st September 2021
Seats Available	40

Payments

Course fee – 25000 INR

Online payment details: Will be sent to candidates selected through preliminary interview.

Team lead With Passion & Experience

Resource Persons

Renowned/Reputed and well experienced faculty members will be delivering the lectures for the entire program.

Dr. Nagesh Laxminarayan

Dayanand Sagar College of Dental Sciences, Bengaluru, India
